We are proud to co-host the 'CONNECT Season 3 - Future Ready Leaders in India's Amrit Kaal', building on the success of our first two seasons featuring prominent orators. This season focuses on cultivating leadership, innovation, and collaboration among India's emerging talents, particularly as India's global leadership is increasingly recognized. In line with this theme, we have also curated 12 Leadership awards to celebrate excellence.

ABOUT CONNECT SEASON 3

The agenda for this season is comprehensive, including 11 plenary sessions covering a range of topics from India's economic leadership, financial sector growth, and strategic leadership to the digital economy, capital markets, and sustainability. These sessions, enriched with distinguished speakers and keynote sessions, will also feature engaging panel discussions, immersive workshops, and a prestigious ceremony.

In collaboration with Credibl ESG, our co-host and ESG tech partner, we are conducting two educational boot camps focused on dynamic changes in sustainability and ESG. The BRSR & GRI Expert Boot Camp offers hands-on training in sustainability reporting standards, while the MSMEs Path to ESG Boot Camp provides focused training on ESG in the MSME sector. These boot camps are designed to enhance understanding and skills in these critical areas, with participants receiving certificates upon completion.

Join us for an enriching experience at CONNECT Season 3, designed to inspire and captivate participants, shaping the future of leadership in India.

BRSR & GRI EXPERT BOOTCAMP

Our BRSR & GRI Expert Bootcamp is designed to offer in-depth training on the Business Responsibility and Sustainability Report (BRSR) and the Global Reporting Initiative (GRI) frameworks. This intensive program is tailored for professionals aiming to master sustainability reporting standards and practices.

Overview

Participants will engage in a comprehensive curriculum, encompassing:

- **Detailed Understanding:** Delve into the core principles and guidelines of the BRSR and GRI frameworks.
- **Practical Application:** Utilize Credibl's advanced BRSR reporting software for real-world application.
- **Case Studies:** Analyse successful sustainability reports to understand best practices and common pitfalls.
- **Hands-On Experience:** Develop and refine report drafts through guided exercises, enhancing your practical skills in sustainability reporting.

Benefits

By the end of the boot camp, participants will:

- *Gain a robust understanding of sustainability reporting within the BRSR and GRI contexts.*
- *Be equipped with the skills to create effective, comprehensive sustainability reports.*
- *Receive a prestigious training certificate, acknowledging their expertise in BRSR and GRI frameworks.*

MSME'S PATH TO ESG

This boot camp is tailored for the unique ESG needs of Micro, Small, and Medium Enterprises (MSMEs). Our goal is to empower MSMEs with the knowledge and tools to adopt and integrate Environmental, Social, and Governance (ESG) standards effectively into their operations.

2

Overview

Join us for an immersive experience where you will:

- **Explore ESG Significance:** Understand why ESG is crucial for MSMEs in the current business landscape.
- **Global Regulations Impact:** Learn about the influence of global ESG regulations on MSMEs.
- **Supply Chain Dynamics:** Discover the critical role of supply chains in successful ESG implementation.
- **Interactive Learning:** Engage in lively discussions, case studies, and practical exercises tailored for MSMEs.

Benefits

Participants of this boot camp will:

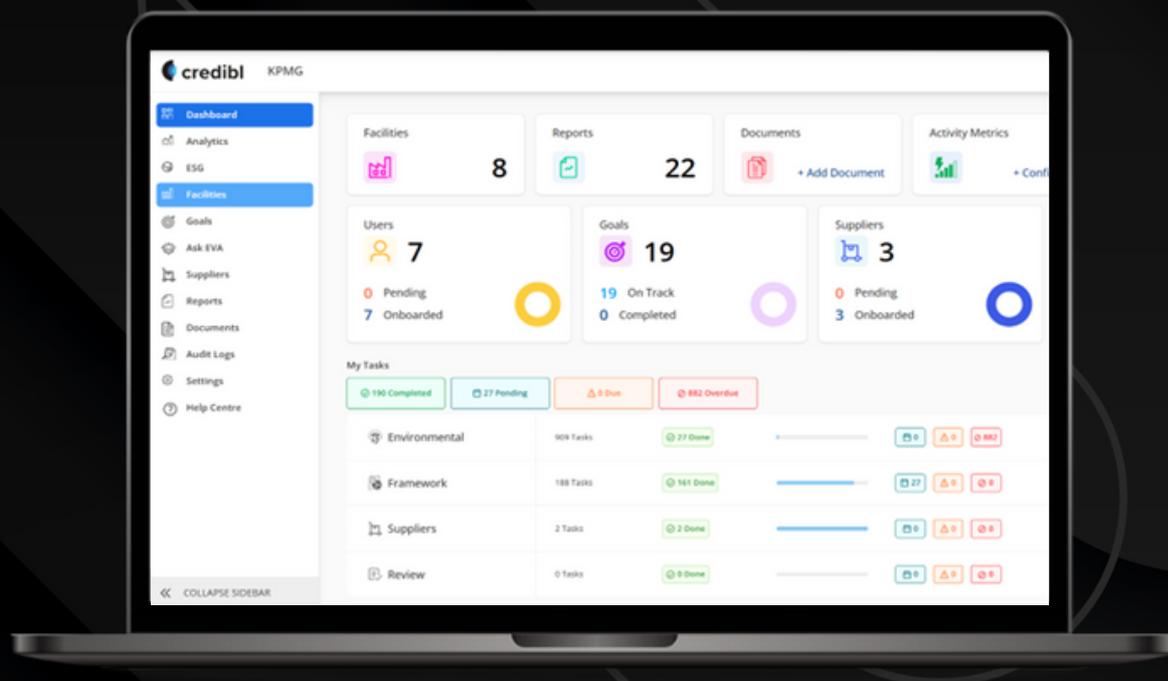

- *Acquire essential knowledge to implement ESG practices in the MSME sector.*
- *Gain valuable insights on aligning business operations with global ESG standards.*
- *Earn a 'Future Ready Business Leader' certificate, recognizing their readiness to lead sustainable business transformations.*

Transform Your Business

Embrace the sustainability journey and enhanced corporate responsibility with our MSMEs Path to ESG Bootcamp. Equip your business with the prowess to navigate the evolving landscape of ESG standards.
